

Steps to Install StudyMate on Your Computer

StudyMate Author and StudyMate Class

1. **You will need administrative rights for this process.** If an older version of StudyMate Author was previously installed on your computer, you can check for a newer version when prompted or by following these steps:
 - Open StudyMate Author
 - Click Help on the top left corner
 - Click Check For Update
 - Click Update/Download if a newer version is availableContact coleit@tsu.edu if a license key is needed for the upgrade.
2. **If you do not have administrative rights on your computer** and/or you do not have an older version of StudyMate Author already installed, you must submit a ticket to OIT Helpdesk to have StudyMate Author installed on your computer.
3. As an alternative to StudyMate Author, you can use **StudyMate Class** which is already available in all Blackboard courses for faculty and students to use.
4. If you need assistance in using StudyMate Author or StudyMate Class, contact an instructional designer from COLEIT at 713-313-4853 for an individual training session. You can also refer to these start guides
